

## **Mission Statement**

Farthing Wood Private Day Nursery offers a high standard of care for children from birth to 5 years of age in a stimulating, happy, safe and secure environment, where their self confidence and esteem can grow.

We encourage enthusiasm, good manners, independence and consideration for others from the children in our care. The children are encouraged to have freedom of choice through play.

We aim to provide an environment which reflects and respects the various cultures and backgrounds in which we live. Enjoyable activities are provided where children can gain knowledge, life experiences and be able to integrate with others.

Each child receives the individual attention he/she needs to develop new skills and interests, and to discover that learning is an exciting and fun experience. We also aim to provide a natural transition from nursery to school life, so that each child is well prepared for the national curriculum.
